

DEPARTMENT OF DEFENSE

FREEDOM OF INFORMATION ACT PROGRAM *CY 1991*

REPORT TO CONGRESS

PREPARED BY:
OFFICE OF THE ASSISTANT SECRETARY OF DEFENSE
(PUBLIC AFFAIRS)
DIRECTORATE FOR FREEDOM OF INFORMATION
AND SECURITY REVIEW

CY 1991 FREEDOM OF INFORMATION ACT ANNUAL REPORT

SUMMARY

A total of 129,437 public requests for records under the Freedom of Information Act (FOIA) were processed during 1991 by the Department of Defense. As shown below, this continues the upward trend in number of cases processed since the inception of the report in 1975.

DOD FOIA REQUESTS PROCESSED

The Department of Defense fully denied 7,709 and partially denied 1,993 out of 129,437 requests on the basis of FOIA exemptions. Of those exemptions, 12% were for classified information; 11% for internal rules and practices; 3% for statutory exemptions; 11% for proprietary data; 19% for deliberative material; 21% for privacy information; and 23% for law enforcement investigations. An additional 28,503 requests could not be filled in whole or in part for other reasons, such as lack of records, referral to another agency, or lack of specificity sufficient to identify the requested records. There were 800 appeals of denied requests, 46 of which were granted, 143 partially denied, and 442 fully denied.

The total DoD operating cost associated with the 1991 requests was \$23,962,169.67. The average cost of processing a single case during 1991 was approximately \$185. Fee collections for records provided to the public amounted to \$1,593,410.78. Total program costs since inception of the report are reflected below.

DOD FOI PROGRAM COSTS

Questions regarding this report should be addressed to the Director, Freedom of Information and Security Review, OASD (Public Affairs), Room 2C757, The Pentagon, Washington, DC 20301-1400.

***Types of Categories**

- 1. Transferred Request**
 - 2. Lack of Records**
 - 3. Failure of Requester to Reasonably Describe Record**
 - 4. Other Failures by Requester to Comply with Published Rules and/or Directives**
 - 5. Request Withdrawn by Requester**
 - 6. Not an Agency Record**
- (See following page for description of each category.)

"OTHER REASONS" DESCRIBED

1. Transferred Request

This category applies when responsibility for making a determination or a decision on categories listed below is shifted from one Component to another Component/Federal Agency.

2. Lack of Records

This category covers situations wherein the requester is advised the agency has no record, or has no statutory obligation to create a record.

3. Failure of Requester to Reasonably Describe Record

This category is specifically based on Section 552(a)(3)(A) of the FOIA.

4. Other Failures by Requester to Comply with Published Rules and/or Directives

This category is based on Section 552(a)(3)(B) of the FOIA and includes instances of failure to follow published rules concerning time, place, fees and procedures.

5. Request Withdrawn by Requester

This category covers situations when the requester asks an agency to disregard the request (or appeal) or pursues the request outside FOIA channels.

6. Not an Agency Record

This category indicates the requested information is not an agency record.

Item 3

Initial Denial Authorities by Participation

Item 7

Court Opinions and Actions Taken

OSD/JS

None

DEPARTMENT OF THE ARMY

Carney v. CIA, No. 88-0602-MRP, C.D. CA, 15 Feb 91. Plaintiff sought documents concerning the alleged capture, torture, and execution of her father (James F. Carney) by members of Honduran armed forces in September 1983. The government withheld the documents under FOIA exemption 1. On 15 February 1991, the district court adopted the findings of the Magistrate and granted the government's motion for summary judgment.

Hudson v. Department of the Army, No. 87-01114, D.C. Cir., 26 Feb 91. Plaintiff, an insurance agent, sought release of a computer tape with name, address, and other information about all active motor vehicle registrants in Europe. The Army withheld disclosure consistent with policy not to release unit addresses for personnel assigned to units that are sensitive, routinely deployable, or stationed overseas. On 26 February, the Court of Appeals, District of Columbia Circuit Court, affirmed the district court's reliance on FOIA exemption 6, to deny plaintiff's demand for the documents. The court accepted the Army's argument that release of the information would be a clearly unwarranted invasion of privacy because of the terrorism threat faced by overseas soldiers.

Myles-Pirzada v. Department of the Army, No. 91-1080, D.D.C., filed 13 May 91. FOIA suit arising out of plaintiff's request for redacted portions of a National Guard Bureau Inspector General's report about plaintiff's involuntary transfer to an inactive status. Plaintiff was a major in the District of Columbia National Guard. The Inspector General redacted the report based on FOIA exemption 5. During the litigation, the Army learned that the District of Columbia National Guard Inspector General read plaintiff portions of the withheld documents. The Army subsequently released those documents to plaintiff. The Army's motion for summary judgment for the remaining documents is pending.

National Guard Association v. National Guard Bureau, No. 91-0673, D.D.C., filed 1 Apr 91. Plaintiff requested roster or magnetic tape listing name, pay grade, home address or unit and installation of every officer in the Army and Air National Guard residing in the United States. Based on decision in Schwanner v. Department of the Air Force, the government released the requested information and plaintiff dismissed its lawsuit.

Providence Journal Co. v. Department of the Army, No. 91-0255, D. RI, 12 Dec 91. Plaintiffs, a newspaper and one of its reporters sues for release of redacted portions of Army Inspector General Report of Investigation into misconduct by senior officers in the Rhode Island National Guard. The Army filed a motion for summary judgment, arguing that it properly withheld the documents under FOIA exemptions 5, 6, and 7(C). Plaintiffs filed their own motion for summary judgment. On 12 Dec 91, the district court granted in part and denied in part the cross motions for summary judgment, ordering the Army to disclose most of the withheld documents. The Army will appeal.

Scheer v. Stone, No. CIV91-0150, D. ID, filed 24 Apr 91. FOIA lawsuit arising out of plaintiff's request for redacted parts of a Safety Accident Board Investigation into the crash of a UH-1H helicopter, which injured plaintiff and killed the remaining crewmen. The Army withheld the findings and recommendations of the safety board and the autopsies of the deceased crewmen based on FOIA exemptions 5 and 6. The Army filed for summary judgment in September 1991. Its motion is pending.

Schok D/B/A Flowline Alaska v. Department of the Army, No. F90-022, D. AK, filed 3 May 90. Plaintiff is a contractor who completed the conversion of a building at Fort Wainwright from quarters for hospital staff into hospital administration offices. Plaintiff requested numerous documents under the FOIA pertaining to the contract. The Army released all but two documents, a one-page document containing hand-written calculations and a two-page internal memo. These two documents related to government estimates for delays in the performance of the contract, and until plaintiff presented a properly certified contract claim, the contracting officer did not want to prematurely reveal his estimates and forfeit his bargaining position. Upon submission of a properly certified claim on 17 June 1991, the Army released the documents to plaintiff. The Army has now moved to dismiss the case as moot.

Weinstock v. Department of the Army, No. 91-1733, D.D.C., 12 Sep 91. FOIA suit arising out of plaintiff's request of 14 June 1991 for documents related to Army General Counsel opinion regarding incremental funding of fixed-price contracts. Plaintiff did not receive a timely response to his request and promptly filed suit. The Army sought an "**Open America**" stay". The court dismissed the case without prejudice pending plaintiff's exhaustion of administrative remedies.

DEPARTMENT OF THE NAVY

Capitol Industries, Inc. v. Garrett, CA No 91-320-N, U. S. District Court, ED VA, Norfolk Div. A reverse FOIA lawsuit was filed on 28 May 91 in response to an 8 May 91 decision by the Principal Deputy General Counsel granting an appeal by Steven Fellman, Esquire on behalf of the National Organization of Theatre Owners (NATO) to release portions of a Norfolk Naval Base concession contract with R. C. Theatres (Capitol Industries). The order of dismissal of 22 Aug 91 required the Office of General Counsel to reconsider the appeal. After reconsideration, the Deputy General Counsel (Logistics) partially denied the appeal on 27 Nov 91.

Colonial Trading Corp. v. Department of the Navy, D.C. CA No. 87-1406 GHR, Judge Revercomb. The Memorandum Decision and Order dated 5 Apr 90 granted Navy's Motion for Summary Judgment. The court held that Navy was entitled to rely upon exemption (b)(3) - 10 USC 130 and the Arms Export Control Act to withhold unclassified technical data. The court also rejected Plaintiff's arguments that 15 USC 637b requires release of MK-46 torpedo technical data since Plaintiff only builds spare parts for torpedoes, not entire torpedoes or that Plaintiff is an alternative responsible source under the Competition in Contracting Act. On 26 Oct 90, Plaintiff appealed the judgment of the court to the U. S. Court of Appeals for the District of Columbia. The Plaintiff withdrew its appeal on 19 Feb 91.

Kirk Brothers Mechanical Contractors, Inc. v. Department of the Navy, U. S. District Court, Eastern District of Pennsylvania, CA No. 90-0486, U. S. Court of Appeals, Third Circuit, 90-1564. The Northern Division, Naval Facilities Engineering Command had an injunctive and declaratory relief case filed on 23 Feb 90 on the theory of violation of the Administrative Procedures Act, 5 U. S. C. 701 et. seq. The suit also alleged violations of rights to free speech, and petitioned the courts for redress and due process under the 1st and 5th amendments of the U. S. Constitution. The motion filed on 19 Mar 90 requested the court to enjoin the Navy from withholding records requested under FOIA, to order immediate production of the documents, and to assess attorney's fees and costs as a result of untimely processing of a FOIA request for information relating to five contracts. On 12 Jun 90, a court order was issued dismissing Plaintiff's motion for sanctions. On 26 Jun 90, the court issued an order dismissing the case for lack of subject matter jurisdiction. On 24 Jul 90, Kirk Brothers filed a Notice of Appeal to the Third Circuit Court of Appeals. On 18 Jan 91, the Third Circuit Court of Appeals issued a judgment order affirming the lower court's decision.

Project on Military Procurement v. Department of the Navy, D.C. CA No. 88-2130, Judge Stanley Sporkin. Memorandum Opinion dated 10 Apr 89 granted Plaintiff's Motion for Summary Judgment resulting in granting Plaintiff's request for the fee waiver because "the information sought can contribute to the public understanding." The court order dated 7 May 91 awarded to Plaintiff its attorney's fees and expenses in an amount over \$10,000.

Caryl A. Potter III, Esquire v. Department of the Navy, CA No. 88-1850 GHR, Judge Revercomb. This was an Open America case. The case was dismissed on 12 Mar 91 after the Naval Sea Systems Command processed the four requests. The Stipulation of Dismissal was made without prejudice, with each party to bear its own costs and attorney's fees.

Falzone v. Department of the Navy, CA No. 85-3862, D.C. Circuit. Pro se Plaintiff sought list of all Marine officers transferring to Pensacola, Florida, from overseas or from deployable service units. Government Motion for Summary Judgment was granted on the grounds that the requested lists were exempt from release under exemption (b)(6) - personal privacy. Final district court decisions were entered on 21 Nov 86, but stayed as a result of *Washington Post v. U. S. Department of State*. Supplemental brief was filed on 23 Jul 90. Case was dismissed on 3 Jun 91 since the

plaintiff failed to respond to the court ordered briefing and never met deadlines and order to show cause.

Jill E. Cragin v. U. S. Navy, CA No. 90-0115P, D. ME. In 1969, Plaintiff's daughter suffered from meningitis and neurological impairment. Lawsuit was filed in 1985, but was deemed time-barred by the Federal Judge. A Tort Claim Litigation investigation in anticipation of litigation was performed. Plaintiff received most of the investigation under FOIA, except for Medical Quality Assurance reports and certain privacy matters documents. Release of information made on 30 Jul 90. Submission of declarations made on 1 Oct 90. Government Motion to Dismiss was granted due to mootness (i. e., Government release all requested documents). Case was dismissed on 14 Mar 91.

Richard D'Aleo v. U. S. Navy, CA No. 89-2347. D.D.C. Alleged former counterintelligence agent sought release of a non-disclosure agreement he says he executed with the Naval Investigative Service in 1983. FOIA/PA request was denied on 26 Aug 87. Plaintiff seeks release of records or declaratory relief, declaring that the non-disclosure agreement, if any, non-binding, and injunctive relief (enjoining enforcement or threatened enforcement of any non-disclosure agreement). In Mar 90, Plaintiff committed suicide. Plaintiff moved to substitute. Navy filed opposition on 20 Sep. 90. Dismissal granted on 15 Apr 91, as Plaintiff did not file appeal within allowed time.

McDonnell v. United States. CA No. 88-362(HET), D.N.J. Plaintiff requested documents from FBI relating to the sinking of the SS MORRO CASTLE in 1934. FBI referred the case to the Naval Military Personnel Command (NMPC). NMPC released some documents and referred the remainder of the case to the Naval Investigative Service Command (NISCOM). NISCOM redacted some information under exemptions (b)(7)(C) - personal privacy and (b)(7)(D) - confidential source. Plaintiff's appeal for redacted information was denied. Plaintiff later requested additional documents from NISCOM. None were available. Plaintiff filed suit for previously denied information and information he feels NISCOM should hold. Motion for Summary Judgment granted on 6 Sep 91.

DEPARTMENT OF THE AIR FORCE

Howard, David L. v. Secretary of the Air Force, et. al., USDC WD, TX Civ. No. SA-89-CA-1008. Plaintiff requested copies of all outdated Code of Federal Regulations (CFR). On 30 November 1990, defendants filed a motion to dismiss or in the alternative for summary judgment. Defendants state the requested materials (CFRs) are not agency records obtainable under the FOIA. On 11 December 1990, plaintiff (David L. Howard) filed an opposition and a cross-motion for summary judgment seeking injunctive relief based upon defendants' refusal to provide him with outdated copies of the CFRs. Both parties agreed to proceed before a magistrate. On 13 July 1991, plaintiff requested production of documents. On 7 August 1991, defendants requested that discovery be stayed pending decision on the motions for dismissal. Court denied defendants' motion to stay discovery. On 2 October 1991, defendants' motion to dismiss was granted.

NATIONAL SECURITY AGENCY/CENTRAL SECURITY SERVICE

Frederick Bauer v. DoD, et al., Civ. No. Y-91-1182 D. MD, 3 May 91. In this case, the plaintiff sought a writ of mandamus from the District Court to compel NSA to process his request under the FOIA/PA for records on himself. NSA submitted a declaration which was filed with the court and on 7 Nov 91, the court found the petitioner's claim to be moot.

Brad Carter v. NSA and CIA, Civ. No. 91-3532-WDK(Kx) C. D. CA, 28 Jun 91. This lawsuit arose from the alleged failure of NSA and CIA to respond to plaintiff's requests under the FOIA/PA. Both defendants submitted sworn affidavits in support of a motion to dismiss and on 23 Oct 91, the court dismissed the case with prejudice.

Grove v. Central Intelligence Agency, et al., Civ. No. 89-0090-SSH D.D.C, Feb 89. A Philadelphia policeman sought disclosure of NSA records associated with a 1980 arrest he made in Philadelphia for possession of explosives. In 1991, the United States filed an NSA declaration that a search found no records and moved for summary judgment, which is still pending.

Ray Lindsey v. NSA, Civ. No. JFM-87-1564 D. MD, 4 Dec 87. Plaintiff filed suit seeking records on himself and various subjects, including the salvage of a Russian sub and the Glomar Explorer. The government was granted summary judgment by the district court in July 1991 and Lindsey filed a notice of appeal on 12 Aug 91.

Item 9

Fee Schedule and Fees Collected

The fee schedule on pages 58 through 72, reprinted from Chapter VI, DoD Regulation 5400.7-R, October 1990, with Change 1, May 10, 1991, establishes standard costs collectable by Department of Defense Agencies.

\$1,593,410.78 was collected from the public for making records available during the year 1991 (see item 10(b), page 74 for agency totals).

CHAPTER VI

FEE SCHEDULE

Section 1

GENERAL PROVISIONS

6-100 Authorities

The Freedom of Information Act (5 U.S.C. 552), as amended; by the Freedom of Information Reform Act of 1986; the Paperwork Reduction Act (44 U.S.C. 35); the Privacy Act of 1974 (5 U.S.C. 552a); the Budget and Accounting Act of 1921 (31 U.S.C. 1 et. seq.); the Budget and Accounting Procedures Act (31 U.S.C. 67 et. seq.); the Defense Authorization Act for FY 87, Section 954, (P.L. 99-661), as amended by the Defense Technical Corrections Act of 1987 (P.L. 100-26).

6-101 Application

a. The fees described in this Chapter apply to FOIA requests, and conform to the Office of Management and Budget Uniform Freedom of Information Act Fee Schedule and Guidelines. They reflect direct costs for search, review (in the case of commercial requesters); and duplication of documents, collection of which is permitted by the FOIA. They are neither intended to imply that fees must be charged in connection with providing information to the public in the routine course of business, nor are they meant as a substitute for any other schedule of fees, such as DoD Instruction 7230.7 (reference (r)), which does not supersede the collection of fees under the FOIA. Nothing in this Chapter shall supersede fees chargeable under a statute specifically providing for setting the level of fees for particular types of records. A "statute specifically providing for setting the level of fees for particular types of records" (5 U.S.C. 552 (a)(4)(a)(vi) means any statute that enables a Government Agency such as the Government Printing Office (GPO) or the National Technical Information Service (NTIS), to set and collect fees. Components should ensure that when documents that would be responsive to a request are maintained for distribution by agencies operating statutory-based fee schedule programs such as the GPO or NTIS, they inform requesters of the steps necessary to obtain records from those sources.

b. The term "direct costs" means those expenditures a Component actually makes in searching for, reviewing (in the case of commercial requesters), and duplicating documents to respond to an FOIA request. Direct costs include, for example, the salary of the employee performing the work (the basic rate of pay for the employee plus 16 percent of that rate to cover benefits), and the costs of operating duplicating machinery. These factors have been included in the fee rates prescribed at Section 2 of this Chapter. Not included in direct costs are overhead expenses such as costs of space, heating or lighting the facility in which the records are stored.

c. The term "search" includes all time spent looking for material that is responsive to a request. Search also includes a page-by-page or line-by-line identifica-

tion (if necessary) of material in the document to determine if it, or portions thereof are responsive to the request. Components should ensure that searches are done in the most efficient and least expensive manner so as to minimize costs for both the Component and the requester. For example, Components should not engage in line-by-line searches when duplicating an entire document known to contain responsive information would prove to be the less expensive and quicker method of complying with the request. Time spent reviewing documents in order to determine whether to apply one or more of the statutory exemptions is not search time, but review time. See subparagraph 6-101, e., for the definition of review, and subparagraph 6-201, b., for information pertaining to computer searches.

d. The term "duplication" refers to the process of making a copy of a document in response to an FOIA request. Such copies can take the form of paper copy, microfiche, audiovisual, or machine readable documentation (e. g., magnetic tape or disc), among others. Every effort will be made to ensure that the copy provided is in a form that is reasonably useable, the requester shall be notified that their copy is the best available and that the agency's master copy shall be made available for review upon appointment. For duplication of computer tapes and audiovisual, the actual cost, including the operator's time, shall be charged. In practice, if a Component estimates that assessable duplication charges are likely to exceed \$25.00, it shall notify the requester of the estimate, unless the requester has indicated in advance his or her willingness to pay fees as high as those anticipated. Such a notice shall offer a requester the opportunity to confer with Component personnel with the object of reformulating the request to meet his or her needs at a lower cost.

e. The term "review" refers to the process of examining documents located in response to an FOIA request to determine whether one or more of the statutory exemptions permit withholding. It also includes processing the documents for disclosure, such as excising them for release. Review does not include the time spent resolving general legal or policy issues regarding the application of exemptions. It should be noted that charges for commercial requesters may be assessed only for the initial review. Components may not charge for reviews required at the administrative appeal level of an exemption already applied. However, records or portions of records withheld in full under an exemption which is subsequently determined not to apply may be reviewed again to determine the applicability of other exemptions not previously considered. The costs for such a subsequent review would be properly assessable.

6-102 Fee Restrictions

a. No fees may be charged by any DoD Component if the costs of routine collection and processing of the fee are likely to equal or exceed the amount of the fee. With the exception of requesters seeking documents for a commercial use, Components shall provide the first two hours of search time, and the first one hundred pages of duplication without charge. For example, for a request (other than one from a commercial requester) that involved two hours and ten minutes of search time, and resulted in one hundred and five pages of documents, a Component would determine the cost of only ten minutes of search time, and only five pages of reproduction. If

this processing cost was equal to, or less than the cost to the Component for billing the requester and processing the fee collected, no charges would result.

b. Requesters receiving the first two hours of search and the first one hundred pages of duplication without charge are entitled to such only once per request. Consequently, if a Component, after completing its portion of a request, finds it necessary to refer the request to a subordinate office, another DoD Component, or another Federal Agency to action their portion of the request, the referring Component shall inform the recipient of the referral of the expended amount of search time and duplication cost to date.

c. The elements to be considered in determining the "cost of collecting a fee" are the administrative costs to the Component of receiving and recording a remittance, and processing the fee for deposit in the Department of Treasury's special account. The cost to the Department of Treasury to handle such remittance is negligible and shall not be considered in Components' determinations.

d. For the purposes of these restrictions, the word "pages" refers to paper copies of a standard size, which will normally be "8 1/2 x 11" or "11 x 14". Thus, requesters would not be entitled to 100 microfiche or 100 computer disks, for example. A microfiche containing the equivalent of 100 pages or 100 pages of computer printout; however, might meet the terms of the restriction.

e. In the case of computer searches, the first two free hours will be determined against the salary scale of the individual operating the computer for the purposes of the search. As an example, when the direct costs of the computer central processing unit, input-output devices, and memory capacity equal \$24.00 (two hours of equivalent search at the clerical level), amounts of computer costs in excess of that amount are chargeable as computer search time.

6-103 Fee Waivers

a. Documents shall be furnished without charge, or at a charge reduced below fees assessed to the categories of requesters in paragraph 6-104 when the Component determines that waiver or reduction of the fees is in the public interest because furnishing the information is likely to contribute significantly to public understanding of the operations or activities of the Department of Defense and is not primarily in the commercial interest of the requester.

b. When assessable costs for an FOIA request total \$15.00 or less, fees shall be waived automatically for all requesters, regardless of category.

c. Decisions to waive or reduce fees that exceed the automatic waiver threshold shall be made on a case-by-case basis, consistent with the following factors:

1. Disclosure of the information "is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the Government."

(i) The subject of the request. Components should analyze whether the subject matter of the request involves issues which will significantly contribute to the public understanding of the operations or activities of the Department of Defense. Requests for records in the possession of the Department of Defense which were originated by non-government organizations and are sought for their intrinsic content, rather than informative value will likely not contribute to public understanding of the operations or activities of the Department of Defense. An example of such records might be press clippings, magazine articles, or records forwarding a particular opinion or concern from a member of the public regarding a DoD activity. Similarly, disclosures of records of considerable age may or may not bear directly on the current activities of the Department of Defense; however, the age of a particular record shall not be the sole criteria for denying relative significance under this factor. It is possible to envisage an informative issue concerning the current activities of the Department of Defense, based upon historical documentation. Requests of this nature must be closely reviewed consistent with the requester's stated purpose for desiring the records and the potential for public understanding of the operations and activities of the Department of Defense.

(ii) The informative value of the information to be disclosed. This factor requires a close analysis of the substantive contents of a record, or portion of the record, to determine whether disclosure is meaningful, and shall inform the public on the operations or activities of the Department of Defense. While the subject of a request may contain information which concerns operations or activities of the Department of Defense, it may not always hold great potential for contributing to a meaningful understanding of these operations or activities. An example of such would be a heavily redacted record, the balance of which may contain only random words, fragmented sentences, or paragraph headings. A determination as to whether a record in this situation will contribute to the public understanding of the operations or activities of the Department of Defense must be approached with caution, and carefully weighed against the arguments offered by the requester. Another example is information already known to be in the public domain. Disclosure of duplicative, or nearly identical information already existing in the public domain may add no meaningful new information concerning the operations and activities of the Department of Defense.

(iii) The contribution to an understanding of the subject by the general public likely to result from disclosure. The key element in determining the applicability of this factor is whether disclosure will inform, or have the potential to inform the public, rather than simply the individual requester or small segment of interested persons. The identity of the requester is essential in this situation in order to determine whether such requester has the capability and intention to disseminate the information to the public. Mere assertions of plans to author a book, researching a particular subject, doing doctoral dissertation work, or indigency are insufficient without demonstrating the capacity to further disclose the information in a manner which will be informative to the general public. Requesters should be asked to describe their qualifications, the nature of their research, the purpose of the requested information, and their intended means of dissemination to the public.

(iv) The significance of the contribution to public understanding. In applying this factor, Components must differentiate the relative significance or impact of the disclosure against the current level of public knowledge, or understanding which exists before the disclosure. In other words, will disclosure on a current subject of wide public interest be unique in contributing previously unknown facts, thereby enhancing public knowledge, or will it basically duplicate what is already known by the general public. A decision regarding significance requires objective judgment, rather than subjective determination, and must be applied carefully to determine whether disclosure will likely lead to a significant public understanding of the issue. Components shall not make value judgments as to whether the information is important enough to be made public.

2. Disclosure of the information "is not primarily in the commercial interest of the requester."

(i) The existence and magnitude of a commercial interest. If the request is determined to be of a commercial interest, Components should address the magnitude of that interest to determine if the requester's commercial interest is primary, as opposed to any secondary personal or non-commercial interest. In addition to profit-making organizations, individual persons or other organizations may have a commercial interest in obtaining certain records. Where it is difficult to determine whether the requester is of a commercial nature, Components may draw inference from the requester's identity and circumstances of the request. In such situations, the provisions of paragraph 6-104, below, apply. Components are reminded that in order to apply the commercial standards of the FOIA, the requester's commercial benefit must clearly override any personal or non-profit interest.

(ii) The primary interest in disclosure. Once a requester's commercial interest has been determined, Components should then determine if the disclosure would be primarily in that interest. This requires a balancing test between the commercial interest of the request against any public benefit to be derived as a result of that disclosure. Where the public interest is served above and beyond that of the requester's commercial interest, a waiver or reduction of fees would be appropriate. Conversely, even if a significant public interest exists, and the relative commercial interest of the requester is determined to be greater than the public interest, then a waiver or reduction of fees would be inappropriate. As examples, news media organizations have a commercial interest as business organizations; however, their inherent role of disseminating news to the general public can ordinarily be presumed to be of a primary interest. Therefore, any commercial interest becomes secondary to the primary interest in serving the public. Similarly, scholars writing books or engaged in other forms of academic research, may recognize a commercial benefit, either directly, or indirectly (through the institution they represent); however, normally such pursuits are primarily undertaken for educational purposes, and the application of a fee charge would be inappropriate. Conversely, data brokers or others who merely compile government information for marketing can normally be presumed to have an interest primarily of a commercial nature.

d. Components are reminded that the above factors and examples are not all inclusive. Each fee decision must be considered on a case-by-case basis and upon the merits of the information provided in each request. When the element of doubt as to whether to charge or waive the fee cannot be clearly resolved, Components should rule in favor of the requester.

e. In addition, the following additional circumstances describe situations where waiver or reduction of fees are most likely to be warranted:

1. A record is voluntarily created to preclude an otherwise burdensome effort to provide voluminous amounts of available records, including additional information not requested.

2. A previous denial of records is reversed in total, or in part, and the assessable costs are not substantial (e. g. \$15.00 - \$30.00).

6-104 Fee Assessment

a. Fees may not be used to discourage requesters, and to this end, FOIA fees are limited to standard charges for direct document search, review (in the case of commercial requesters) and duplication.

b. In order to be as responsive as possible to FOIA requests while minimizing unwarranted costs to the taxpayer, Components shall adhere to the following procedures:

1. Analyze each request to determine the category of the requester. If the Component determination regarding the category of the requester is different than that claimed by the requester, the Component shall:

(i) Notify the requester that he should provide additional justification to warrant the category claimed, and that a search for responsive records will not be initiated until agreement has been attained relative to the category of the requester. Absent further category justification from the requester, and within a reasonable period of time (i. e., 30 calendar days), the Component shall render a final category determination, and notify the requester of such determination, to include normal administrative appeal rights of the determination.

(ii) Advise the requester that, notwithstanding any appeal, a search for responsive records will not be initiated until the requester indicates a willingness to pay assessable costs appropriate for the category determined by the Component.

2. Requesters must submit a fee declaration appropriate for the below categories.

(i) Commercial. Requesters must indicate a willingness to pay all search, review and duplication costs.

(ii) Educational or Noncommercial Scientific Institution or News Media. Requesters must indicate a willingness to pay duplication charges in excess of 100 pages if more 100 pages of records are desired.

(iii) All Others. Requesters must indicate a willingness to pay assessable search and duplication costs if more than two hours of search effort or 100 pages of records are desired.

3. If the above conditions are not met, then the request need not be processed and the requester shall be so informed.

4. In the situations described by subparagraphs 6-104, b.1. and 2., above, Components must be prepared to provide an estimate of assessable fees if desired by the requester. While it is recognized that search situations will vary among Components, and that an estimate is often difficult to obtain prior to an actual search, requesters who desire estimates are entitled to such before committing to a willingness to pay. Should Component estimates exceed the actual amount of the estimate or the amount agreed to by the requester, the amount in excess of the estimate or the requester's agreed amount shall not be charged without the requester's agreement.

5. No DoD Component may require advance payment of any fee; i. e., payment before work is commenced or continued on a request, unless the requester has previously failed to pay fees in a timely fashion, or the agency has determined that the fee will exceed \$250.00. As used in this sense, a timely fashion is 30 calendar days from the date of billing (the fees have been assessed in writing) by the Component.

6. Where a Component estimates or determines that allowable charges that a requester may be required to pay are likely to exceed \$250.00, the Component shall notify the requester of the likely cost and obtain satisfactory assurance of full payment where the requester has a history of prompt payments, or require an advance payment of an amount up to the full estimated charges in the case of requesters with no history of payment.

7. Where a requester has previously failed to pay a fee charged in a timely fashion (i. e., within 30 calendar days from the date of the billing), the Component may require the requester to pay the full amount owed, plus any applicable interest, or demonstrate that he or she has paid the fee, and to make an advance payment of the full amount of the estimated fee before the Component begins to process a new or pending request from the requester. Interest will be at the rate prescribed in 31 U. S. C. 3717 (reference (af)), and confirmed with respective Finance and Accounting Offices.

8. After all work is completed on a request, and the documents are ready for release, Components may request payment before forwarding the documents if there is no payment history on the requester, or if the requester has previously failed to pay a fee in a timely fashion (i. e., within 30 calendar days from the date of the billing). In the case of the latter, the provisions of subparagraph 6-104, b.7., above, apply. Components may not hold documents ready for release pending payment from requesters with a history of prompt payment.

9. When Components act under subparagraphs 6-104, 1 through 7, above, the administrative time limits of the FOIA (i.e., 10 working days from receipt of initial requests, and 20 working days from receipt of appeals, plus permissible extensions of these time limits) will begin only after the Component has received a willingness to pay fees and satisfaction as to category determination, or fee payments (if appropriate).

10. Components may charge for time spent searching for records, even if that search fails to locate records responsive to the request. Components may also charge search and review (in the case of commercial requesters) time if records located are determined to be exempt from disclosure. In practice, if the Component estimates that search charges are likely to exceed \$25.00 it shall notify the requester of the estimated amount of fees, unless the requester has indicated in advance his or her willingness to pay fees as high as those anticipated. Such a notice shall offer the requester the opportunity to confer with Component personnel with the object of reformulating the request to meet his or her needs at a lower cost.

c. Commercial Requesters. Fees shall be limited to reasonable standard charges for document search, review and duplication when records are requested for commercial use. Requesters must reasonably describe the records sought (see paragraph 1-507).

1. The term "commercial use" request refers to a request from, or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interest of the requester or the person on whose behalf the request is made. In determining whether a requester properly belongs in this category, Components must determine the use to which a requester will put the documents requested. Moreover, where a Component has reasonable cause to doubt the use to which a requester will put the records sought, or where that use is not clear from the request itself, Components should seek additional clarification before assigning the request to a specific category.

2. When Components receive a request for documents for commercial use, they should assess charges which recover the full direct costs of searching for, reviewing for release, and duplicating the records sought. Commercial requesters (unlike other requesters) are not entitled to two hours of free search time, nor 100 free pages of reproduction of documents. Moreover, commercial requesters are not normally entitled to a waiver or reduction of fees based upon an assertion that disclosure would be in the public interest. However, because use is the exclusive determining criteria, it is possible to envision a commercial enterprise making a request that is not for commercial use. It is also possible that a non-profit organization could make a request that is for commercial use. Such situations must be addressed on a case-by-case basis.

d. Educational Institution Requesters. Fees shall be limited to only reasonable standard charges for document duplication (excluding charges for the first 100 pages) when the request is made by an educational institution whose purpose is scholarly

research. Requesters must reasonably describe the records sought (see paragraph 1-507). The term "educational institution" refers to a pre-school, a public or private elementary or secondary school, an institution of graduate high education, an institution of undergraduate higher education, an institution of professional education, and an institution of vocational education, which operates a program or programs of scholarly research.

e. Non-Commercial Scientific Institution Requesters. Fees shall be limited to only reasonable standard charges for document duplication (excluding charges for the first 100 pages) when the request is made by a non-commercial scientific institution whose purpose is scientific research. Requesters must reasonably describe the records sought (see paragraph 5-107). The term "non-commercial scientific institution" refers to an institution that is not operated on a "commercial" basis as defined in subparagraph 6-104, c., above, and which is operated solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry.

f. Components shall provide documents to requesters in subparagraphs 6-104, d. and e., above, for the cost of duplication alone, excluding charges for the first 100 pages. To be eligible for inclusion in these categories, requesters must show that the request is being made under the auspices of a qualifying institution and that the records are not sought for commercial use, but in furtherance of scholarly (from an educational institution) or scientific (from a non-commercial scientific institution) research.

g. Representatives of the news media. Fees shall be limited to only reasonable standard charges for document duplication (excluding charges for the first 100 pages) when the request is made by a representative of the news media. Requesters must reasonably describe the records sought (see paragraph 1-507).

1. The term "representative of the news media" refers to any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. The term "news" means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations broadcasting to the public at large, and publishers of periodicals (but only in those instances when they can qualify as disseminators of "news") who make their products available for purchase or subscription by the general public. These examples are not meant to be all-inclusive. Moreover, as traditional methods of news delivery evolve (e. g., electronic dissemination of newspapers through telecommunications services), such alternative media would be included in this category. In the case of "freelance" journalists, they may be regarded as working for a news organization if they can demonstrate a solid basis for expecting publication through that organization, even through not actually employed by it. A publication contract would be the clearest proof, but Components may also look to the past publication record of a requester in making this determination.

2. To be eligible for inclusion in this category, a requester must meet the criteria in subparagraph 6-104, g.1., above, and his or her request must not be made

for commercial use. A request for records supporting the news dissemination function of the requester shall not be considered to be a request that is for a commercial use. For example, a document request by a newspaper for records relating to the investigation of a defendant in a current criminal trial of public interest could be presumed to be a request from an entity eligible for inclusion in this category, and entitled to records at the cost of reproduction alone (excluding charges for the first 100 pages).

3. "Representative of the news media" does not include private libraries, private repositories of Government records, or middlemen, such as information vendors or data brokers.

h. All Other Requesters. Components shall charge requesters who do not fit into any of the above categories, fees which recover the full direct cost of searching for and duplicating records, except that the first two hours of search time and the first 100 pages of duplication shall be furnished without charge. Requesters must reasonably describe the records sought (see paragraph 1-507). Requests from subjects about themselves will continue to be treated under the fee provisions of the Privacy Act of 1974 (reference (af)), which permit fees only for duplication. Components are reminded that this category of requester may also be eligible for a waiver or reduction of fees if disclosure of the information is in the public interest as defined under subparagraph 6-103, a., above. (See also subparagraph 6-104, c.2.).

6-105 Aggregating Requests

Except for requests that are for a commercial use, a Component may not charge for the first two hours of search time or for the first 100 pages of reproduction. However, a requester may not file multiple requests at the same time, each seeking portions of a document or documents, solely in order to avoid payment of fees. When a Component reasonably believes that a requester or, on rare occasions, a group of requesters acting in concert, is attempting to break a request down into a series of requests for the purpose of avoiding the assessment of fees, the agency may aggregate any such requests and charge accordingly. One element to be considered in determining whether a belief would be reasonable is the time period in which the requests have occurred. For example, it would be reasonable to presume that multiple requests of this type made within a 30 day period had been made to avoid fees. For requests made over a longer period; however, such a presumption becomes harder to sustain and Components should have a solid basis for determining that aggregation is warranted in such cases. Components are cautioned that before aggregating requests from more than one requester, they must have a concrete basis on which to conclude that the requesters are acting in concert and are acting specifically to avoid payment of fees. In no case may Components aggregate multiple requests on unrelated subjects from one requester.

6-106 Effect of the Debt Collection Act of 1982 (P.L. 97-365).

The Debt Collection Act of 1982 (P.L. 97-365) provides for a minimum annual rate of interest to be charged on overdue debts owed the Federal Government. Components may levy this interest penalty for any fees that remain outstanding 30

calendar days from the date of billing (the first demand notice) to the requester of the amount owed. The interest rate shall be as prescribed in 31 U. S. C. 3717 (reference (ae)). Components should verify the current interest rate with respective Finance and Accounting Offices. After one demand letter has been sent, and 30 calendar days have lapsed with no payment, Components may submit the debt to respective Finance and Accounting Offices for collection pursuant to the Debt Collection Act of 1982.

6-107 Computation of Fees

The fee schedule in this Chapter shall be used to compute the search, review (in the case of commercial requesters) and duplication costs associated with processing a given FOIA request. Costs shall be computed on time actually spent. Neither time-based nor dollar-based minimum charges for search, review and duplication are authorized.

Section 2

COLLECTION OF FEES AND FEE RATES

6-200 Collection of Fees

Collection of fees will be made at the time of providing the documents to the requester or recipient when the requester specifically states that the costs involved shall be acceptable or acceptable up to a specified limit that covers the anticipated costs. Collection of fees may not be made in advance unless the requester has failed to pay previously assessed fees within 30 calendar days from the date of the billing by the DoD Component, or the Component has determined that the fee will be in excess of \$250 (see paragraph 6-104).

6-201 Search Time

a. Manual Search

<u>Type</u>	<u>Grade</u>	<u>Hourly Rate (\$)</u>
Clerical	E9/GS8 and below	12
Professional	01-06/GS9-GS/GM15	25
Executive	07/GS/GM16/ES1 and above	45

b. Computer Search

Computer search is based on direct cost of the central processing unit, input-output devices, and memory capacity of the actual computer configuration. The salary scale (equating to paragraph a. above) for the computer operator/programmer determining how to conduct and subsequently executing the search will be recorded as part of the computer search.

6-202 Duplication

<u>Type</u>	<u>Cost per Page (¢)</u>
Pre-Printed material	02
Office copy	15
Microfiche	25
Computer copies (tapes or printouts)	Actual cost of duplicating the tape or printout (includes operator's time and cost of the tape)

6-203 Review Time (in the case of commercial requesters)

<u>Type</u>	<u>Grade</u>	<u>Hourly Rate(\$)</u>
Clerical	E9/GS8 and below	12
Professional	01-06/GS9-GS/GM15	25
Executive	07/GS/GM16/ES1 and above	45

6-204 Audiovisual Documentary Materials

Search costs are computed as for any other record. Duplication cost is the actual direct cost of reproducing the material, including the wage of the person doing the work. Audiovisual materials provided to a requester need not be in reproducible format or quality.

6-205 Other Records

Direct search and duplication cost for any record not described above shall be computed in the manner described for audiovisual documentary material.

6-206 Costs for Special Services

Complying with requests for special services is at the discretion of the Components. Neither the FOIA, nor its fee structure cover these kinds of services. Therefore, Components may recover the costs of special services requested by the requester after agreement has been obtained in writing from the requester to pay for one or more of the following services:

- a. Certifying that records are true copies.
- b. Sending records by special methods such as express mail, etc.

Section 3

COLLECTION OF FEES AND FEE RATES FOR TECHNICAL DATA

6-300 Fees for Technical Data

a. Technical data, other than technical data that discloses critical technology with military or space application, if required to be released under the FOIA, shall be released after the person requesting such technical data pays all reasonable costs attributed to search, duplication and review of the records to be released. Technical data, as used in this Section, means recorded information, regardless of the form or method of the recording of a scientific or technical nature (including computer software documentation). This term does not include computer software, or data incidental to contract administration, such as financial and/or management information. DoD Components shall retain the amounts received by such a release, and it shall be merged with and available for the same purpose and the same time period as the appropriation from which the costs were incurred in complying with request. All reasonable costs as used in this sense are the full costs to the Federal Government of rendering the service, or fair market value of the service, whichever is higher. Fair market value shall be determined in accordance with commercial rates in the local geographical area. In the absence of a known market value, charges shall be based on recovery of full costs to the Federal Government. The full costs shall include all direct and indirect costs to conduct the search and to duplicate the records responsive to the request. This cost is to be differentiated from the direct costs allowable under Section 2 of this Chapter for other types of information released under the FOIA.

b. Waiver. Components shall waive the payment of costs required in subparagraph 6-300, a., above, which are greater than the costs that would be required for release of this same information under Section 2 of this Chapter if:

1. The request is made by a citizen of the United States or a United States corporation, and such citizen or corporation certifies that the technical data requested is required to enable it to submit an offer, or determine whether it is capable of submitting an offer to provide the product to which the technical data relates to the United States or a contractor with the United States. However, Components may require the citizen or corporation to pay a deposit in an amount equal to not more than the cost of complying with the request, which will be refunded upon submission of an offer by the citizen or corporation;

2. The release of technical data is requested in order to comply with the terms of an international agreement; or,

3. The Component determines in accordance with subparagraph 6-103, a., above, that such a waiver is in the interest of the United States.

c. Fee Rates

1. Search Time

(i) Manual Search

<u>Type</u>	<u>Grade</u>	<u>Hourly Rate (\$)</u>
Clerical	E9/GS8 and below	13.25
(Minimum Charge)		8.30

Professional and Executive (To be established at actual hourly rate prior to search. A minimum charge will be established at 1/2 hourly rates)

(ii) Computer search is based on the total cost of the central processing unit, input-output devices, and memory capacity of the actual computer configuration. The wage (based upon the scale in subparagraph 6-300, c.1. (i), above) for the computer operator and/or programmer determining how to conduct, and subsequently executing the search will be recorded as part of the computer search.

2. Duplication

<u>Type</u>	<u>Cost</u>
Aerial photographs, specifications, permits, charts, blueprints, and other technical documents	\$2.50
Engineering data (microfilm)	
a. Aperture cards	
(i) Silver duplicate negative, per card	.75
When key punched and verified, per card	.85
(ii) Diazo duplicate negative, per card	.65
When key punched and verified, per card	.75
b. 35mm roll film, per frame	.50
c. 16mm roll film, per frame	.45
d. Paper prints (engineering drawings), each	1.50
e. Paper reprints of microfilm indices, each	.10

3. Review Time

<u>Type</u>	<u>Grade</u>	<u>Hourly Rate(\$)</u>
Clerical	E9/GS8 and below	13.25
(Minimum Charge)		8.30

Professional and Executive (To be established at actual hourly rate prior to review. A minimum charge will be established at 1/2 hourly rates).

d. Other Technical Data Records

Charges for any additional services not specifically provided subparagraph 6-300, c., above, consistent with DoD Instruction 7230.7 (reference (r)), shall be made by Components at the following rates:

1. Minimum charge for office copy (up to six images) \$3.50
2. Each additional image10
3. Each typewritten page 3.50
4. Certification and validation with seal, each 5.20
5. Hand-drawn plots and sketches, each hour or fraction thereof 12.00

ITEM 10(a)

Availability of Records

(New categories or segregable portions of records now being revealed.)

None

Item 10(b)

Calendar Year Costs and Fees Collected

Component	Annual Cost	Fees Collected
OSD/JS	\$1,807,991.83	\$25,466.33
DEPT ARMY	\$8,053,932.56	\$405,086.17
