**FREEDOM OF INFORMATION ACT  
ANNUAL REPORT  
FISCAL YEAR 1999**

**(Report Period: October 1, 1998 through September 30, 1999)**

**EXECUTIVE SUMMARY**

During the report period, fiscal year (FY) 1999, a total of 97,171 public requests for records under the Freedom of Information Act (FOIA) were completed by the Department of Defense (DoD). In the processing of these cases, the Department of Defense fully denied 2,147 and partially denied 11,742 out of 97,171 requests on the basis of FOIA exemptions. Of those exemptions, 7% were for classified information; 6% for internal rules and practices; 5% for statutory exemptions; 6% for proprietary data; 11% for deliberative material; 37% for privacy information; and 28% for law enforcement investigations. Thirty-one thousand two hundred sixty six (31,266) requests could not be filled in whole or in part for other reasons, such as lack of records, referral to another agency, or lack of specificity sufficient to identify the requested records. There were 1,067 actions taken on appeals of denied requests (50 granted, 177 partially denied, 575 fully denied, and 265 not filled for other reasons, as mentioned earlier).

The total DoD operating cost associated with the processing of requests during this report period was \$32,618,179.33. The average cost of processing a single case during this period was approximately \$336.00. Fee collections for records provided to the public amounted to \$834,816.23 (2.6% of total program cost).

- i. Other. Any other reason a requester does not comply with published rules, other than those mentioned above.

B. Basic terms, expressed in common terminology.

1. Freedom of Information Act/Privacy Act (FOIA/PA) request: A FOIA request is generally a request for access to records concerning a third party, an organization, or a particular topic of interest. A Privacy Act request is a request for records concerning oneself; such requests are also treated as FOIA requests. All requests for access to records, regardless of which law is cited by the requester (FOIA or PA), are included in this report.
2. Initial Request: A request to a federal agency for access to records under the Freedom of Information Act (FOIA).

3. Appeal: A request to a federal agency asking that it review at a higher administrative level a full denial or partial denial of access to records under the Freedom of Information Act, or any other FOIA determination such as a matter pertaining to fees.
4. Processed Request or Appeal: A request or appeal for which an agency has taken a final action on the request or the appeal in all respects.
5. Multi-track processing: A system in which simple requests requiring relatively minimal review are placed in one processing track and more voluminous and complex requests are placed in one or more other tracks. Requests in each track are processed on a first-in/first out basis. A requester who has an urgent need for records may request expedited processing (see below).
6. Expedited processing: An agency will process a FOIA request on an expedited basis when a requester has shown an exceptional need or urgency for the records which warrants prioritization of his or her request over other requests that were made earlier.
7. Simple request: A FOIA request that an agency using multi-track processing places in its fastest (nonexpedited) track based on the volume and/or simplicity of records requested.
8. Complex request: A FOIA request that an agency using multi-track processing places in a slower track based on the volume and/or complexity of records requested.
9. Grant: An agency decision to disclose all records in full in response to a FOIA request.
10. Partial grant: An agency decision to disclose a record in part in response to a FOIA request, deleting information determined to be exempt under one or more of the FOIA's exemptions; or a decision to disclose some records in their entireties, but to withhold others in whole or in part.
11. Denial: An agency decision not to release any part of a record or records in response to a FOIA request because all the information in the requested records is determined by the agency to be exempt under one or more of the FOIA's exemptions, or for some procedural reason (such as because no record is located in response to a FOIA request).
12. Time limits: The time period in the Freedom of Information Act for an agency to respond to a FOIA request (ordinarily 20 working days from proper receipt of a "perfected" FOIA request).
13. "Perfected" request: A FOIA request for records which adequately describes the records sought, which has been received by the FOIA office of the agency or agency component in possession of the records, and for which there is no remaining question about the payment of applicable fees.
14. Exemption 3 statute: A separate federal statute prohibiting the disclosure of a certain type of information and authorizing its with holding under FOIA subsection (b)(3).

15. Median number: The middle, not average, number. For example, of 3, 7, and 14, the median number is 7.
16. Average number: The number obtained by dividing the sum of a group of numbers by the quantity of numbers in the group. For example, of 3, 7, and 14, the average number is 8.

### “Specific” Other Reasons Cited on Initial Determinations for Nondisclosure Explained

**Electronic Referral:** Requested information available on Internet and the requester was apprised of the Internet address.

**Insufficient Address/Info:** The requester provided an insufficient or inaccurate address and could not be contacted. The requester did not respond to inquiry from the FOI Office requesting clarification of their request.

**Lacked 3d Party Waiver:** A third party (e.g., an attorney) making a request on behalf of someone else failed to provide an authorization from the requester which would allow the third party access to the requester’s records.

**Publicly Sold Document:** Requested material was available through cash sales and the requester was advised how to purchase.

**Direct NPRC Referral:** Requested concerned military service records of former service members. Requests were returned to the requester along with blank a form SF-180 and suggestion that they complete the form and submit directly to the National Personnel Records Center (NPRC) of the National Archives and Records Administration (NARA), St. Louis, MO.

**Non-Attribution:** The agency’s involvement in a referral action would itself compromise national security matters which are properly classified.

**Improper Referrals:** Referrals were returned to the referring agency/activity without action for correction because they were incorrect or incomplete.

**NARA Referral:** Requested records were no longer under control of the referred agency. Requesters were directed to contact NARA directly.

**Not Agency Issue:** Requested documents did not pertain to the agency.
